Will my child be in a class with friends from their primary school?

We have a vertical tutoring system. That means your child will be in a tutor group with students from Y7 – Y11. When placing students in tutor groups at the start of the year we ensure they are always with at least one other student from the same school. This may or may not be their friend. Curriculum classes are also mixed, so this is an opportunity to meet lots of new people.

My child has a sibling at The Carlton Academy, with they be in the same tutor group?

Not necessarily. We always place siblings in the same House, but not the same tutor group.

My child is worried about getting lost around the academy. Will students be given a map?

On their first day all students are given a tour of the school and be shown specific classrooms where they will have lessons. During the first few days some students can get a little lost. There are lots of staff and older students who are more than happy to help the new year 7s find their way. The older students remember what it was like on their first day.

The day starts with just with Y7 students in school. They should arrive at school for an 8:40am start and will have an assembly. Tutors will then collect students and take them to their tutor rooms. During that session they go through what a school day looks like, as well as providing them with their timetable etc. They will also have an assembly to end the day.
